

Lolo Care, Inc. Legal Document Review Memo

Date: June 22, 2026

Prepared for: Lolo Care, Inc.

Scope: Update of the founder stock and governance package to match the filed Delaware Certificate of Incorporation and the registered-agent incorporator initial resolutions.

Executive Summary

The active legal package has been updated to match the official formation records for Lolo Care, Inc.

Official formation facts now reflected in the package:

- ? Legal name: Lolo Care, Inc.
- ? Entity: Delaware stock corporation.
- ? Delaware file number: 10661302.
- ? Incorporation date: June 15, 2026.
- ? Authorized stock: 10,000,000 shares of Common Stock.
- ? Par value: \$0.00001 per share.
- ? Registered agent: A Registered Agent, Inc.
- ? Registered office: 8 The Green, Ste A, Dover, DE 19901.
- ? Initial registered-agent resolutions date: June 21, 2026.

The founder capitalization is internally consistent with the official charter: Charles Petrini-Poli receives 5,000,000 shares for \$50.00, Thibaud Peverelli receives 3,000,000 shares for \$30.00, and 2,000,000 shares remain authorized but unissued.

The registered-agent initial resolutions appointed Charles Petrini-Poli as the initial President, Treasurer, Secretary, and Director. Because of that, the old draft sole-incorporator consent has been marked "SUPERSEDED / DO NOT SIGN." A new bridge document, `03A-action-by-initial-sole-director-appointing-thibaud-and-officers.docx`, has been added so Charles can, as initial sole director, ratify/adopt the bylaws, fix the board at two, appoint Thibaud Peverelli as a director, and confirm the intended officer roles.

The RJ / Ronald J. Antonelli package has also been updated to the official company name, official par value, and a \$10.00 aggregate stock purchase price for 1,000,000 shares at \$0.00001 per share.

The documents are closer to signature, but they should still be reviewed by Delaware corporate counsel before execution.

Review Verdict

Overall: Strong working draft package, now aligned to the filed Delaware formation records.

Strengths:

- ? The company name, file number, incorporation date, registered agent information, authorized shares, and par value now match the filed certificate.
- ? The founder share numbers and cap table math are consistent.
- ? The unassigned 2,000,000 shares are correctly treated as authorized but unissued, not owned by anyone.
- ? The governance package now reflects the real starting point: Charles was initially appointed as the sole director/officer by the registered-agent incorporator resolutions.
- ? The bridge action gives a clean path to add Thibaud as the second director and confirm Charles as CEO / President and Thibaud as Secretary / Treasurer.
- ? The bylaws and governance agreement require both directors for board action while the board has two members.
- ? The stock ledger, payment receipts, and uncertificated share notices support clean corporate records.

Remaining items before signing:

- ? Fill in execution dates and closing dates.
- ? Fill in Charles's address and Thibaud's address.
- ? Fill in the Company's principal office address.
- ? Fill in payment dates and payment method once the founder payments are actually made.
- ? Fill in reserved-matter thresholds such as spending, contract, debt, hiring, and term limits.
- ? Confirm with counsel that the new sole-director bridge action is valid under the final bylaws and whether any stockholder ratification should be added.
- ? Confirm securities-law exemptions and any required state blue sky filings.
- ? Decide whether the current no-founder-vesting structure is intentional.
- ? Decide whether to add stronger transfer restrictions, such as company right of first refusal, co-sale/tag-along rights, and board/founder approval for transfers.
